

# Sentinel Choice

Sentinel Choice, part of the NurseCare.AI suite of solutions, is an AI driven platform that streamlines patient choice during the discharge process, and seamlessly connects patients to post-acute providers that meet their specific needs.

## A Case Manager's Ace

The IMPACT Act of 2014 now requires that hospitals offer patients a list of post-acute care options available to them. It also requires that the presentation of choice and quality measures is recorded/documentated to show proof of unbiased choice and equal representation.

## Current Discharge Risks and the Sentinel Choice Solution

Hospitals	Patients	Post-Acute
 <p><b>Current Risks</b></p> <ul style="list-style-type: none"> <li>• Transparency of the discharge pathway</li> <li>• Complexity of steps discharge arrangements entail</li> <li>• Analytical comprehension of discharge specifications</li> </ul>	 <p><b>Current Risks</b></p> <ul style="list-style-type: none"> <li>• Cultural and Language barriers halting engagement</li> <li>• Limited joint decision making</li> <li>• Lack of awareness of discharge process and post-acute options</li> </ul>	 <p><b>Current Risks</b></p> <ul style="list-style-type: none"> <li>• Limited extent of resource sharing</li> <li>• Breaks in communication between health and social care teams</li> <li>• Demand for inpatient beds</li> </ul>
 <p><b>NurseCare's Solution</b></p> <ul style="list-style-type: none"> <li>• Choice presented with advanced data and analytics adhering to Medicare and HIPAA standards</li> <li>• More patient involvement, leading to increased satisfaction and decreased readmissions</li> </ul>	 <p><b>NurseCare's Solution</b></p> <ul style="list-style-type: none"> <li>• Bilingual Interface</li> <li>• Provides a common ground for patient and family preferences for care</li> <li>• Convenient list of care options brought to the bedside with an easy navigable interface</li> </ul>	 <p><b>NurseCare's Solution</b></p> <ul style="list-style-type: none"> <li>• Accurate and updated depiction of quality measures and star ratings</li> <li>• Increased communication allowing a fluid transition from the hospital setting to post-acute</li> <li>• Advanced virtual touring options allowing an equal representation for post-acute facilities</li> </ul>

## How it Works

“When it was put together it worked so amazing because it's all inclusive...because everything we want a patient to see in order to make an informed choice is right there at their fingertips. We used this pre-COVID...we loved it then and we absolutely love and thrive on it now”

**Denise Bates**  
Director of Care Continuum  
at Sierra View Medical Center

“Sentinel choice believes your staff should be at the center of patient choice, we understand your compassion for the patient and empower your case managers to continue being the patient liaison in your community”

**Mike Lang**  
NurseCare.AI CEO
